In case of failure to pay the participation fee within the required period, and if the entry limit is reached for the category the failed payment was made for, the Organiser is authorised to assume that the participant resigned from entering the Race. Point 4 below is applied accordingly. The amount of the participation fee is determined in Appendix A to the Regulations.

VIII. THE RACE ROUTE, COURSE, AND LIMITS

1. The route of the Race starts and finishes in Warsaw and passes through the territory of the Republic of Poland. The total length of the route amounts to approximately 3,600 km and may be changed depending on the Organiser's knowledge of possible obstructions, road works, detours or for other justified reasons, e.g. safety. The route of the Race updated for the start day will be shared in a gpx file and as a map included in the starting packet. The Organiser is not liable for mistakes a participant or their crew members may make when reading the map or incorrect reading of data from the gpx file on devices a participant uses.
2. Subject to point 3 below, in order to complete the Race, the participants need to cover the entire route riding a bike within the time limit and go through all the checkpoints indicated by the Organiser on a map. The Organiser reserves the right to establish additional checkpoints on the route *ad hoc*. A participant may temporarily leave the route of the Race. In such case they must inform the Organiser. Coming back to the route needs to take place, where the participant left it. In case of passing through a built-up area, route modifications are allowed versus the route provided by the Organiser in so far as this is justified for safety, obstructions and traffic intensity. After leaving the built-up area the participant is obliged to continue the Race following the designed route, unless due to existing circumstances it is objectively impossible. In such case a possibly shortest detour is allowed, which has to be reported to the Organiser immediately with the reasons stated. All route modifications a participant fails to report may result in excluding them from the Race.
3. The Organizer introduces the possibility for participants to compete on the route $\frac{1}{4}$ (900 km) and $\frac{1}{2}$ (1800 km) of the full Race distance, under the name "1/4 RAP" and "1/2 RAP" and reserves the right to prepare also other

alternative, shorter routes for participants competing in the Race. Completion of the shorter routes will be awarded with the title of Finisher of the particular route, but only completion of the route of the entire Race will entitle a participant to obtain the Race Finisher title. The scope of the Organizer's services for such shorter distances will be communicated to participants on the Race website in the "Pricelist" section.

4. On 22.07.2022 in Warsaw a pre-race briefing will be held, which will be obligatory for all the participants. The briefing will address in particular the route of the Race with possible modifications of the route compared to versions previously shared with participants, expected obstructions, specific safety regulations as well as Organiser's recommendations regarding the course of the event. Racer's participation in the briefing will be confirmed by their signature. Failure to participate in the briefing may result in excluding the participant from the Race.
5. The Race will start at the location specified in section IV point 2 above, by start categories on 23 July 2022 at the following times (which are subject to change if necessary):

RAP Challenge participants:

- a) Solo unsupported: 6:00 am

7. On the day of the Race participants are obliged to come [to the Race Office] at least an hour before the scheduled start to collect the packet and have the mandatory equipment checked. If some elements of this equipment are missing, the Racer will not be allowed to start until they complete the equipment and the Organiser confirms it. In such case the time of the racer's start is still calculated according to the start time for their category stated in point 5 above regardless of the actual time the racer commences the Race.
8. The Organiser establishes permanent checkpoints on the route, which must be passed within the time limit for the Race to be completed. Permanent checkpoints will be marked on maps provided to participants and gpx files.
9. The limit at each checkpoint is established by the mean speed of the racer in a race leg between the checkpoints and amounts to 12.5 kph for the solo category and 18.75 kph for the team category. Failure to complete a leg of the race within the time limit will result in the participant, and possibly their crew, exiting the route of the Race. The Organiser will not allow such participants to continue the Race on their own account in the situation described above.
10. The time limit for the entire Race is 12 days in case of solo categories and 8 days in case of team categories counted from the moment when a participant starts the Race.
11. In checkpoints established by the Organiser participants may use food support or previously prepared drop bags.
12. An Organiser's support vehicle will travel on the route of the Race at the speed determined by the limit for solo racers counted from the start of the last participant of the Race.
